

# Year 1 - Geography

Together we flourish and grow.

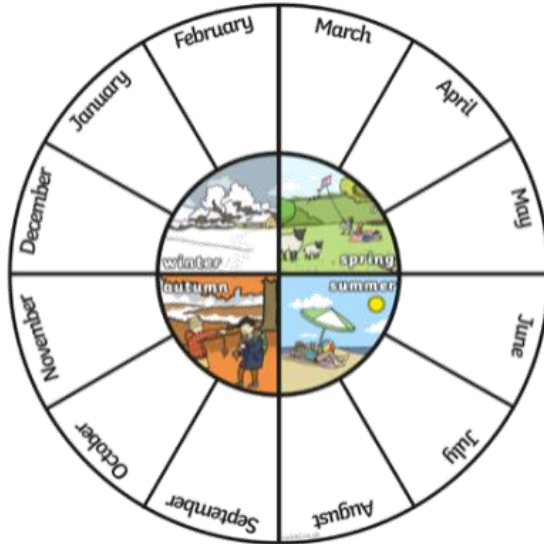

# Weather in our world

Is the weather the same around the world?

The months of the year and seasons

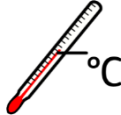

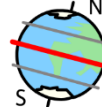

Weather symbols

## I need to know -

- The weather in the United Kingdom can change from day to day.
- The four seasons (spring, summer, autumn, winter) have particular weather patterns.
- The weather affects what we do and what we wear. If it is rainy, we wear waterproof clothes when we go outside. If it is hot, we need to wear sun cream and a sun hat.
- In a weather forecast, symbols are used to show what the weather will be like in a particular area.
- People need to take special care in extreme weather such as: droughts, flooding, blizzards, heatwaves and hurricanes.
- Countries around the world have different climates. Countries near the equator have hotter climates and the Arctic and Antarctic have much colder climates.

## Key Vocabulary

season		the four parts to the year	weather symbol		pictures or signs that help us understand something
temperature		the measured amount of heat in an area	equator		an imaginary line around the center of the Earth
weather forecast		a statement saying what the weather will be like today, the next day or for the next few days	extreme weather		weather that is beyond normal
